P2P Lending - Global Trends

First introduced in the United Kingdom in 2005, P2P lending platforms allow creditworthy borrowers and willing investors to transact for short to medium term business loans through an online platform. Due to its cutting edge advantages such as competitive interest rates, flexible terms and simple processing, P2P platforms have gained momentum across the globe.

Investing via 5paisa Loans, the preferred lending platform

5paisa Loans is a peer-to-peer lending platform where investors, like you, can lend money to borrowers and enjoy benefits that only this asset class can offer.

How P2P Lending Works?

Key Features of P2P Lending

Lending, an obvious Investment Option

While lending provides an excellent way to diversify one’s portfolio, it is also one of the most promising investment options when compared with other asset classes.

Return on investment per annum

<table>
<thead>
<tr>
<th>Asset Class</th>
<th>Return on investment per annum</th>

5paisa Loans: Smart Risk Management

Lending as an investment has its associated risks and the biggest being the borrower’s credit worthiness. 5paisa loans, unlike other P2P platforms who simply act as a mediator, function like a mutual fund manager instead. **We evaluate each borrower on an individual basis and also create a basket of borrowers to offer a cushion against risk.**

### Algorithm Based Underwriting

5paisa Loans has developed a unique automated algorithm based underwriting to screen borrowers.

**Borrower Screening**

- Profession
- Current Loans
- Marital Status
- Work Ex.
- Income
- Repayment History
- Financials Dependents
- Gender
- Age
- Organisation
- Bank statements
- Personal
- IT Returns
- Education
- Credit Score
- Residence Type
- Financial SMS Data

**Proprietary Scoring**

- **Ability to pay**
  - Low
  - High

- Positive Indicators
  - Derived from financial behaviour, social, professional factors

**Borrower Listing**

**Amit Sharma**

- Loan Amount Eligibility: ₹2,00,000
- Interest Rate: 18%
- Loan Tenure: 12 Months
5paisa Loans offers tailor made portfolios for each class of lenders based on their risk taking appetite and expected returns. Each portfolio is a unique combination of borrowers belonging to different categories of risk profiles viz low, medium and high.

**Fund Allocation**

**Conservative**
- Low Risk, Low Return
- Avg. Returns 12% to 18% (default adjusted)

**Moderate**
- Medium Risk, Medium Return
- Avg. Returns 18% to 20% (default adjusted)

**Aggressive**
- High Risk, High Return
- Avg. Returns 20% to 24% (default adjusted)

This unique feature helps in risk minimization due to diversification of funds. Let’s understand this with an example

**Investment: ₹1,00,000/-**

**Portfolio: Conservative**

<table>
<thead>
<tr>
<th>Risk Category</th>
<th>Fund Allocation</th>
<th>Total Amt. invested</th>
<th>Maximum exposure per borrower</th>
<th>No. of borrowers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Low Risk</td>
<td>60%</td>
<td>60,000</td>
<td>2,000</td>
<td>30</td>
</tr>
<tr>
<td>Medium Risk</td>
<td>25%</td>
<td>25,000</td>
<td>1,500</td>
<td>17</td>
</tr>
<tr>
<td>High Risk</td>
<td>15%</td>
<td>15,000</td>
<td>500</td>
<td>30</td>
</tr>
<tr>
<td></td>
<td></td>
<td>1,00,000</td>
<td></td>
<td>77</td>
</tr>
</tbody>
</table>

- Funds allocated to high risk borrowers are just 15%.
- Exposure per borrower is a very small percentage of the total investment.
- Assuming two high risk borrowers default in this specific case, the amount at risk is ₹1,000/- i.e. 1% of total investment.
- Projected returns of 12-18% outweigh this risk of 1%.
Lend Digitally, Earn Exponentially

Grow your money with India’s highly trusted peer-to-peer lending platform. Start lending in 5 minutes with a paperless process.

Registration Process

- **Step-01** Enter Personal Detail
- **Step-02** Verify your Bank Details
- **Step-03** Add Money to Escrow A/C
- **Step-04** Upload Documents
- **Step-05** Access your A/C
